Introduction

Thank you for your support of the DotNetNuke® Module Review Program. We value your participation and your commitment to the providing quality products for DotNetNuke. At the heart of this program is a goal to increase consumer confidence in the DotNetNuke platform and the third party resource market. As this program continues to evolve the benefits of association with the “official” source of consumer confidence for DotNetNuke will increase. The review process is designed to help identify modules and vendors which meet and exceed objective quality standards. Review and subsequent display of the “Reviewed” logo will help to distinguish your product from many others currently being offered. Please find the results of our review below.

Review Results

We have completed the review of .netDudes forgotUsername v01.05.00, and we are pleased to notify you that your module has passed the review and is approved for sale in the DotNetNuke Marketplace. You are also authorized to display the official DotNetNuke Reviewed logo (see [Appendix A: Logo Usage Guidelines](#) for details).

Module Review Details

Fundamental Requirements

Modules for DotNetNuke must meet **all** of the following requirements:

1. Install without error

Passed - No errors were observed.

2. Uninstall correctly

Passed - No errors were observed.

3. Supports use of ObjectQualifier

Passed - All database objects were correctly named using the defined ObjectQualifier.

4. Supports use of DatabaseOwner

Passed - All database objects were correctly created using the defined schema.

DotNetNuke® Module Review Results

5. Supports Virtual Portals

Passed - Installed module in both parent and child portals with clear separation in the data. A review of the data model shows data is appropriately identified with a ModuleId

6. Supports Globalization

Passed - Module was installed and operated in a non-US environment. A test of sample usage revealed no globalization related errors.

7. Includes End User License Agreement (EULA)

Passed - EULA is included in the module package.

Elective Requirements

Modules for DotNetNuke must meet at least **one** elective requirement from **each** of the following groups

1. Support

- a. Module is distributed with complete source code.

Not Implemented - Source code is not available.

- b. Module includes software support

Implemented - Support provided via feedback form and Product Forums.

2. Documentation

- a. Distributed with help files

Implemented - Module is distributed with help files

- b. Includes online help

Implemented - Help files are available to view online.

DotNetNuke® Module Review Results

Optional Requirements

Modules for DotNetNuke will be reviewed for compliance with the following optional requirements. These tests will be used for informational purposes to help customers determine whether the module supports key platform features.

1. Supports DotNetNuke Localization framework

Implemented - Static content is correctly localized

2. Implements DotNetNuke IPortable interface

Implemented - The IPortable interface is supported.

3. Implements DotNetNuke ISearchable interface

Not Implemented - The ISearchable interface is not supported

4. Operates in Medium Trust environment

Not Tested – Medium trust testing was omitted from the current test suite. Your module will be tested at a future date at no additional cost.

5. Supports Standard Portal Styles

Implemented - Module was reviewed for usage of standard portal styles. Standard styles were used where appropriate.

Appendix A: Logo Usage Guidelines

Logo Usage Guidelines

The DotNetNuke Reviewed logo is available in three sizes.

Figure 1: Small (120 x 120)

Figure 2: Medium (200 x 200)

DotNetNuke® Module Review Results

**Figure 3: Large (250 x 250)**

Logo usage must conform to the following requirements:

- 1) Logo may not be altered and must be displayed as-is.
- 2) Online usage requires use of the following script:

```
<script language="Javascript" type="text/Javascript"
src="http://marketplace.dotnetnuke.com/ReviewProgram/Verify.js"></script>
<script language="Javascript" type="text/Javascript">
    dnnDisplayReviewLogo("38AQDZQB4", "Module", "small")
</script>
```

This script uniquely identifies your module and allows users to verify which version of your module was reviewed. If you wish to use a different logo size, just substitute the appropriate size in the `dnnDisplayReviewLogo` method (large, medium, small).

- 3) This logo is only authorized for display in conjunction with the specific product identified in the Review Results document provided at the completion of testing. Because the logo is product specific, it should be clear to the viewer which product corresponds to the displayed logo.
- 4) The product must be retested after every major release (defined by the major version number), after every major DotNetNuke release or after two years from the last testing date in order to continue usage of the logo.

5) Offline logos are available from the following location:

<http://marketplace.dotnetnuke.com/reviewprogram/logos/logos.zip>

Failure to comply with these requirements may result in revocation of the right to use the logo.
